Private Places
Making the decision to buck can be a scary one. You need to have a game plan of how you'll proceed. If you find yourself in the middle of a buck, here are some steps to help you get back on your feet:

1. **Buck a Small Object:** Find a small object, like a rock or a stick, and use it to help you get back on your feet. This can provide extra support and help you balance.
2. **Use Your Arms:** Use your arms to push yourself back up. Make sure to keep your arms straight and your body centered.
3. **Shift Your Weight:** Shift your weight to one side, then the other, to help you get back on your feet.
4. **Take Small Steps:** Take small, controlled steps to get back on your feet.

Remember, bucking can be a dangerous maneuver. If you feel you need help, don't hesitate to ask for assistance.
